These checklists complement instructions and are subordinate to the parent instruction and/or other references relating to inspection requirements (for example, DoD references). The Inspector General's staff coordinates on all AIACLs. AIACLs are directive in nature, placed under one umbrella, and are listed separately in AIAND2. Publishing Management issues the control numbers for AIACLs; however, the series number for the checklists fall under the series number of the parent instruction of the functional area affected by the checklist for example, AIACL65-1 ("65" is the series number for Financial Management and "1" is the control number). **NOTE:** Checklists were previously published as attachments to AIA instructions or AIA pamphlets.
